ERIE Contractor

The Industry Standard

ERIE sets the industry standard in Contractor Grade wheelbarrows with over 140 years of field testing and design.

Features include – full 6 cu ft capacity seamless steel tray with steel rod reinforced tray lip, extra-long treated hardwood handles, premium hardware and heavy gauge steel undercarriage – providing the maximum in performance and durability. For loads up to 600lbs.

Backed by a 24 month limited warranty and ERIE's **Exceptional Customer Service standard**. Its no wonder why Contractors - Expect an ERIE!

E-1038 Shown

Features

✓ **6 cu ft Seamless Steel Tray**

Welded tray clips provide a seamless tray with no bolts to catch dirt or debris and no holes to cause leakage or rusting

✓ **64" Hardwood Handles**

Extra-long, treated hardwood handles and wide handle spread provides greater lifting leverage and better load balance

✓ **Hardened Powder Coat Finish**

Premium finish in ERIE Orange heat treated powder coat provides maximum durability and chip resistance

✓ **Heavy Gauge Steel Undercarriage**

Channel formed steel legs and K-bracing provide lasting strength and rigidity

✓ **Heavy Gauge Steel Cross Bracing**

Separate tray mounting braces evenly distribute load weight across the handles, increasing load stability by reducing torque strain on the tray

✓ **Heavy Duty Greaseable Roller Bearing**

Premium 2 1/4" roller bearings on a 3/4" axle with grease fittings provides lasting smooth operation under heavy load

Steel Rod Reinforced Tray Lip

5/16" steel rod rolled under the tray lip adds strength and reduces torque strain and tray warping

Wheel Options

4-Ply Air Tire (#5s)

✓ 4-ply premium rubber tire with all steel rim for durable ride performance

Flat Free (#8s)

✓ Premium polyurethane foam tire with all steel rim prevents punctures and downtime

FF - Big Wheel (#9s)

✓ Extra-wide tire made of premium polyurethane foam with all steel rim prevents punctures and downtime

Expect an ERIE.

Is a reminder of what our customers expect of us. They expect industry leading features. They expect the highest build quality. They expect our Exceptional Customer Service standard. They expect great value for their money. This is the reputation ERIE has earned over 140 years. This is the reputation we measure ourselves against in everything we do. We are immensely proud of what we have built at the ERIE Tool Works company. However, much of the credit goes to our customers who continue to support us with their business and who continue to – Expect an ERIE.

Tools & Equipment

Post Hole Digger (UNIV00)

Heavy duty, contractor quality post hole digger. Unique clam-shell & lever design accommodates working in tight locations.

Auger (E-678)

Made of heavy gauge steel, hardened steel blades and cast components, this auger adjusts to 6"-7"-8" diameters.

Jacks (E-FJ048 & E-FJ036)

Made of heavy duty cast components and alloy steel beam with a 3 ton / 6,500 lbs lifting capacity. Available in 36" and 48" heights. Maintenance kit also available.

Post Puller (PP100)

Don't fight with removing or damaging T-Posts. The Puller removes T-Posts straight out of the ground easily and safely.

Lawn Roller (E-1824-BXR)

Large capacity, rust free poly roller. The 24" x 18" roller has a filled weight of 260lbs to ensure more effective results over smaller drum sizes.

Wheel Kits & Replacement Parts

We maintain a comprehensive replacement parts program which ensures that products not expressly covered under our Limited Warranty Program can be repaired easily and at a relatively low cost.
